# The Energy Difference

All Bar & Bat Mitzvah packages automatically include the following benefits at no additional cost to our clients:

**Choice of Emcee & Dancers**  
Your family will be invited to attend one of our Family Nights where you will be able to interact with our talented staff and see them perform.

**Choice of DJ Facade**  
You choose which of our custom-designed DJ frontboards you will have at your party.

**Choice of Dancer Outfits**  
You choose which outfits our dancers will wear at your event. With over 40 options—including both unisex and gender specific costumes—you choose how our dancers will be presented at your event.

**Two-Tiered Black Dance Risers**  
Along with the DJ Facade, our two-tiered dance risers bring a strong presence to the dance floor.

**Custom Designed Sound System**  
Energy sound engineers have designed a custom sound system that is the clearest in the industry. The capability of performing in a room of up to 500 guests is automatically included in every package.

**45,000+ Song Music Library**  
Each Energy DJ is equipped with over 45,000 songs that can be played on the fly. Regardless of the type of music you or your guests may request, odds are we will be able to play it!

**Seasoned Professionals**  
We take pride in our image and realize that professionalism makes the greatest impression! Thus, all Energy staff is vigorously trained to be among the best in the industry. Additionally, we only employ performers who are at least 18 years of age.

# Staff, Lighting and Music Video Options

Inspired by the Las Vegas, Miami & New York club scenes, our sets are custom designed and engineered by our in-house production crew. These items cannot be seen anywhere outside of Energy events!

## UPGRADES LEVEL I

### Omnidirectional Light Truss

Stationary, multicolor lights that flank either side of our DJ setup. Provide adequate lighting to any dance floor. (2 vertical trusses each measure 2' x 2' x 8')

### Projector, Screen & Montage

Energy will produce your montage and show it at your event on our 8' screen. Includes 2 copies of the DVD. (Up to 100 photos)

### Spectrum Risers\*

A 2-tiered lit dance riser that may be used by the Energy staff and guests alike. (4 risers totaling 5' x 8')

### Spectrum Facade\*

Lit cube placed in front of our DJ setup that not only hides our equipment but drastically adds to the focal point of your room. (2 panels totaling 4' x 8')

### Spectrum Cubes\*

Two single-level, lit dance platforms generally used in conjunction with our standard risers or Spectrum Risers. (2 cubes—each 4' x 4')

*\*Each of these items has been outfitted with integrated LED lighting technology. Colors can be custom-matched to your event décor so as to fit seamlessly with whatever environment your décor company has designed. During dance sets, the lighting will move through over 500 pre-programmed patterns as well as pulsate to the beat of the music.*

## UPGRADES LEVEL II

### Dual Percussionists

Interactive drummers who add amazing Energy to the party by both interacting with your guests as well as drumming to the beat of the music we play during high-energy dance sets!

### Rubix Wall\*

8 panel modular wall that can be separated to both fill space as well as flood your dance floor with a comfortable amount of light. (8 panels—each 4' x 4'. May be stacked 8' high)

### Spectrum Facade & Risers\*

The facade covers our DJ equipment while the risers provide an inviting place for your guests to dance. These two pieces pair very well together to create a great presence in your event room. (Facade: 4' x 8'; Risers: 5' x 8')

### HD Towers\*

Two towers, each consisting of (8) LCD video displays. Each of the 16 displays shows music videos throughout the party in addition to showing your montage, custom logo or other videos by request. (2 towers—each 4' x 4' x 8')

### Plasma Panels\*

Four panels, with two containing big-screen plasma television displays. In addition to showing music videos throughout the event, the screens can also display your montage, custom logo or other specially requested videos. (4 panels stacked 2 high, totaling 8' x 8')

*New staging is always being developed. Ask us what's new!*
